Wahid Firnas

Information Systems Student | Data Analytics Enthusiast | SQL |
PHP | MySQL | Web Development
Yogyakarta, Indonesia

Summary

Hi, I'm Wahid Firnas Atsal, an Information Systems student at UPN "Veteran" Yogyakarta with a strong interest in data analytics, database management, and web development. I enjoy solving problems with technology and transforming data into meaningful insights. My goal is to continuously improve my technical skills while contributing to impactful projects. Through academic projects, I have gained hands-on experience with SQL, PHP, MySQL, HTML, and CSS to build web applications and manage databases. These experiences have strengthened my analytical thinking, problem-solving abilities, and collaboration skills. I am always eager to learn new technologies and take on challenges that help me grow both personally and professionally. Outside of academics, I enjoy following football, exploring emerging technologies, and continuously learning through online courses and personal projects. I'm always happy to connect with fellow students, professionals, and anyone passionate about technology, data, and innovation.

Education
